

Report Gameshell

Consegna S3L2

1. Obiettivo

Installeremo su Kali Linux un gioco per familiarizzare con i comandi della shell.

1.2 — Pre-requisiti:

Per installare il gioco GameShell, eseguire in ordine i seguenti comandi, assicurarsi di avere connettività ad internet prima e di aver eseguito il comando `sudo apt-get update`.

```
# sudo apt install gettext man-db procps psmisc nano tree bsdmainutils x11-apps wget
```

```
# wget https://github.com/phyver/GameShell/releases/download/latest/gameshell.sh
```

Una volta eseguiti i comandi, il gioco può essere lanciato con il comando

```
# bash gameshell.sh
```

2. Conclusione

```
{
  Mission goal
  -----
  A secret message has been found, it is kept in the drawer in Merlin's office. It was
  probably enciphered using a Caesar shift cipher.

  Decrypt it by making an exhaustive search from the command line.

  Hint
  ---
  All other secret messages that have been found were using a shift between 10 and 16.

  Useful commands
  -----
  tr STRING1 STRING2
  Replace each character STRING1[i] by STRING2[i] on the standard input, and output the
  result.
  Remark: ``tr`` is an abbreviation for "translate".

  Example: if
    STRING1 = "abcdef"
    STRING2 = "klmnop"
  the file will be output with the following substitution (other characters are left
  unchanged)
    a → k b → l c → m
    d → n e → o f → p

  Note: instead of "abcdefg", it is possible to write "a-g".

  This command is particularly useful with a redirection ``<``.

  [Press space to continue, q to quit.]
```

Questo è il livello dove sono arrivato, dal punto di vista di difficoltà solo sui comandi con il **pipe** “|”
